

Review of the background documents for the SIS preparation (situation analysis)

Introduction

This document gives an overview of the available information that may serve as a background material for the preparation of the Situations Analysis for the Social Inclusion Strategy. The review is divided into three main parts: (1) official statistical surveys in BiH, (2) official strategies, reports and legislation in BiH and (3) research papers and analysis in BiH (the last two parts follow the same structure that approximates the potential structure of the SIS that is to be produced). An overview of the potentially relevant documents from the region is given at the end of the document. In addition, a list of available statistical sources and statistical bulletins with a note on their timeliness and periodicity is given in the appendix to this document.

Specifically, this document covers the following types of document and information:

- a. Statistical and administrative sources of information and data – proposal of required surveys
- b. Official strategies and action planes (BIH governmental bodies at all levels)
- c. Legislative (laws, rule books, etc.)
- d. Stakeholders (official bodies (ministries, agencies, and reforms) CSO, international projects and reforms)
- e. Other sources (reports, analyses, different kind of researches made by international organisation CSOs, individual researches etc.)
- f. Relevant documents from the region.

Some of the titles and subtitles listed in the document are left blank indicating potential information gap. It should be noted that this document is not exhaustive, i.e. there is a possibility that relevant background information on the empty sections have not been selected in the first phase of the document selection.

Official statistical surveys available

- *BiH Agency for Statistics (BHAS), F BiH and RS Institutes for Statistics: LSMS 2001, Living in BiH 2001 -2004 (panel surveys).*
Note: Surveys are not planned to be conducted in the future.
- *BiH Agency for Statistics (BHAS), F BiH and RS Institutes for Statistics: Household budget survey.*
 - *Available for years: 2004, 2007.*
 - *Periodicity: biennial.*
 - *Timeliness: poverty line drawn out from HBS 2007 data will be available in June 2008.*
 - *Next HBS (2009) will be broadened in which way wider scope of data will be available for poverty analysis.*
 - *The regular analysis of HBS data involves poverty line calculation (consumption-based approach). HBS does not allow comprehensive analysis of poverty as the data it provides is of limited extent. The definition of employment in HBS represents a shortcoming: ILO definition was not used, but the self-reported employment status is recorded. This makes it not comparable with the LFS data in this respect.*
- *BiH Agency for Statistics (BHAS), F BiH and RS Institutes for Statistics: Labour Force Survey*
 - *Available for years: 2004, 2007.*
 - *Periodicity: annual*
 - *Timeliness: 9 months (preliminary data available in September)*
 - *BHAS, F BiH and RS Institutes for Statistics plan implementation of LFS quarterly (probably as of 2008).*
- *BHAS, F BiH and RS Institutes for Statistics plan implementation of 4 surveys: quarterly LFS, Time use Survey, SILC and Labour Cost Survey.*
- *It is possible to calculate the Leaken indicators, calculated for BiH in the past (8 indicators), by combining data from the HBS and LFS.*
- *UNICEF, Multiple Indicator Cluster survey MICS 3, Survey of health and social condition of children and women in BiH 2006*
- *Annex 1 – Overview of statistical sources and statistical bulletins*
